COLORS

ADVIK

COLORS

We are Manufacturer, Supplier and Exporter of Dyes, Pigments, Paints & Colors. Our products are well-known for high quality and reasonable prices in the national and international markets.

ABOUT US

Advik Colors is a Surat-based, global manufacturer and exporter of Natural Colors, Food Colors, Lake Colors, Blend Colors, FD&C Colors, D&C Colors & Blend Colors. Our colors are widely used in industries like Food & Beverage, Agrochemical, Cosmetics, Personal Care & Laundry, Pulp & Paper, and Textiles.

We have aligned ourselves with the topmost manufacturers in the world to ensure that our products are manufactured according to the latest standards used internationally. We maintain quality by implementing extensive quality checks on every stage of production adhering to ISO 9001, REACH, GMP, and FDA standards. All the colors manufactured by Advik Colors, meet the regulatory requirement under FSSAI, EU, and USFDA and meets the Kosher & Halal Certification criterion. At Advik Colors, we believe that a product is only as good as the raw material it's made with. As India's premium producer of certified natural and synthetic colors, our color business brings together science, art, and Mother Nature, to create high-performance products that consumers around the world demand, and which end-product manufacturers need to market successfully.

MISSION

We aim to ensure to deliver innovative solutions that meet our customers' needs and help them lead their industries.

We strive to create a positive impact by providing safe, state-of-the-art, and high-quality natural food colors, personal care colors & cosmetic colors that enable our customers to make the environment healthier, increase their productivity and achieve their goals.

VISION

Innovation comes from pushing the limits of what you know and what's considered possible, which can only happen through collaboration and a shared vision for the future.

We don't create products for people, we create products with people. We don't design for markets, we design for communities.

WE OFFER

We deliver a full range of color solutions for any end-use application. This stands for consistent product quality, reliability, your own private label brand development, and excellent technical & customer service. Our comprehensive offering of food, pharmaceutical, and cosmetic color solutions makes us the preferred supplier for our clients. We provide a wide range of certified colors, available in all grades and packaging options.

We offer free and confidential consultations regarding all color-related matters, from food and pharmaceutical applications to personal care products.

- Our team of experts can create or update line colors that comply with GMP guidelines, as well as provide guidance on the application, consistency, and stability of colors.
- We will also work as part of your professional team to develop solutions that meet your unique needs and solve problems associated with a wide range of product development issues.

OUR STRENGTH

Our strength is based on our capacity to turn around new projects with short lead times while maintaining a high degree of quality.

Our solid R&D expertise assures you that we can supply your latest requests and support your future plans as well.

OUR VALUES

Over the past few years, we have been able to achieve expansion in various industries and geographies by establishing strong working relationships with prominent customers. Exceptional performance was driven by reliability and creativity,

” Flexibility to adapt quickly to our customer needs and constant innovation. A small company culture where everyone’s input is valued.

TECHNICAL SUPPORT

Our clients enjoy access to ongoing technical support, professional training resources, special programs, and other amenities including; global representation, a proven safety track record (the safety of our ingredients is verified by reputable scientific testing), competitive pricing, and fast delivery.
